Plant, Cell and Environment (1991) **14**

Contents

PART 1

1 Self-assembly of plant cell walls: opinion
M. C. Jarvis

7 The units of currency for plant water status: opinion
P. J. Schulte

11 Zinc and salinity effects on membrane transport in *Chara connivens*
J. Rygol, W. M. Arnold & U. Zimmermann

25 The effect of water stress on photosynthetic carbon metabolism in four species grown under field conditions
W. P. Quick, M. M. Chaves, R. Wendler, M. David, M. L. Rodrigues, J. A. Passaharinho, J. S. Pereira, M. D. Adcock, R. C. Leegood & M. Stitt

37 Photoinhibitory responses of the epiphytic bromeliad *Guzmania monostachia* during the dry season in Trinidad maintain photochemical integrity under adverse conditions
C. Maxwell, H. Griffiths, A. M. Borland, M. S. J. Broadmeadow & C. R. McDavid

49 Osmotic relations of the drought-tolerant shrub *Artemisia tridentata* in response to water stress
R. D. Evans, R. A. Black, W. H. Loescher & R. J. Fellows

61 Net efflux of Cl^- during hypotonic turgor regulation in a brackish water alga *Lamprothamnium*
Y. Okazaki & N. Iwasaki

71 Cadmium – citric acid – xylem cell wall interactions in tomato plants
M. H. M. N. Senden, F. J. M. Van Paassen, A. J. G. M. Van der Meer & H. Th. Wolterbeek

81 Light as a hazard for the dessiccation-resistant 'resurrection' fern *Polypodium polypodioides* L.
E. H. Muslin & P. H. Homann

91 Changes in mRNA levels and polypeptide subunits of ribulose 1,5-bisphosphate carboxylase in response to supplementary ultraviolet-B radiation
B. R. Jordan, J. He, W. S. Chow & J. M. Anderson

99 Absorption of nitrate and ammonium ions by *Lolium perenne* from flowing solution cultures at low root temperatures
D. T. Clarkson, L. H. P. Jones & J. V. Purves

107 An evaluation of techniques for measuring yield turgor in excised *Salix* leaves
R. Sands, A. J. S. McDonald & I. Stadenberg

115 Spontaneous oscillations of extracellular electrical potentials measured on *Lepidium sativum* L. roots
B. Hecks, Z. Hejnowicz & A. Sievers

123 Non-destructive analysis of root growth in porous media
D. C. Gordon, D. R. P. Hettiaratchi, A. G. Bengough & I. M. Young

129 Effect of salt-osmotic upshock on the edaphic microalga *Neochloris oleoabundans*
C. J. Band, B. O. Arredondo-Vega, R. Vazquez-Duhalt & H. Greppin

135 Book reviews

PART 2

137 Seasonal patterns of cell-to-cell communication in *Chara corallina* Klein ex Willd. I. Cell-to-cell communication in vegetative lateral branches during winter and spring
V. A. Shepherd & P. B. Goodwin

151 Seasonal patterns of cell-to-cell communication in *Chara corallina* Klein ex Willd. II. Cell-to-cell communication during the development of antitherida
V. A. Shepherd & P. B. Goodwin

163 The cyanobacterium *Synechococcus* R-2 (*Anacystis nidulans, S. leopoliensis*) PCC 7942 has a sodium-dependent chloride transporter
R. J. Ritchie

179 Kinetics of chloride transport in the cyanobacterium *Synechococcus* R-2 (*Anacystis nidulans, S. leopoliensis*) PCC 7942
R. J. Ritchie

185 What information is conveyed by an ABA signal from maize roots in drying field soil?
F. Tardieu, J. Zhang & W. J. Davies

193 Xylem ABA controls the stomatal conductance of field-grown maize subjected to compaction or soil drying
F. Tardieu, J. Zhang, N. Katerji, O. Bethenod, S. Palmer & W. J. Davies

199 ATP-driven proton pumping in two species of *Chara* differing in salt tolerance
X. Yao, M. A. Bisson & L. J. Brzezicki

211 ^{137}Cs penetration by contact exchange through isolated plant cuticles: cuticles as asymmetric transport membranes
J. Ertel, H. G. Paretzke & H. Ziegler

221 Chemical composition of 24 wild species differing in relative growth rate
H. Poorter & M. Bergkotte

231 Effects of daytime carbon dioxide concentration on dark respiration in rice
J. T. Baker, F. Laugel, K. J. Boote & L. H. Allen Jr

241 Interactions of blue light and inorganic carbon supply in the control of light-saturated photosynthesis in brown algae
R. M. Forster & M. J. Dring

249 Shoot apex removal does not alter autoregulation of nodulation in soybean
A. C. Delves, A. Higgins & P. Gresshoff

255 Carbonate ions appear to neither inhibit nor stimulate use of bicarbonate ions in photosynthesis by *Ulva lactuca*
S. C. Maberly

261 Book reviews

PART 3

265 Ecophysiology of phloem loading in source leaves: opinion
A. J. E. Van Bel & Y. V. Gamalei

271 Modelling photosynthesis of cotton grown in elevated CO_2
P. C. Harley, R. B. Thomas, J. F. Reynolds & B. R. Strain

283 The carbon canopy economy of the association between cowpea and the parasitic angiosperm *Striga gesnerioides*
J. D. Graves, M. C. Press, S. Smith & G. R. Stewart

289 A new concept of root exudation
H. Schwenke & E. Wagner

301 On the role of orientation in reducing photoinhibitory damage in photosynthetic-twig desert shrubs
J. R. Ehleringer & T. A. Cooper

307 Depolymerization of cortical microtubules is not a primary cause of chilling injury in corn (*Zea mays* L. cv Black Mexican Sweet) suspension culture cells
B. Chu, Z. Xin, P. H. Li & J. V. Carter

313 β-oxidation enzymes and the carnitine-dependent oxidation of palmitate and palmitoyl CoA in mitochondria from avocado
C. Masterton, C. Wood & D. R. Thomas

321 Physiological adaptation of waxapple to waterlogging
C. H. Lin & C. H. Lin

329 High annual productivity of certain agaves and cacti under cultivation
P. S. Nobel, E. García-Moya & E. Quero

337 Seasonal fine-root biomass development of sour orange trees grown in atmosphere of ambient and elevated CO_2 concentration
S. B. Idso & B. A. Kimball

343 Glucose feeding results in coordinated changes of chlorophyll content, ribulose-1,5-bisphophate carboxylase-oxygenase activity and photosynthetic potential in photoautrophic suspension cultured cells of *Chenopodium rubrum*
C. Schäfer, H. Simper & B. Hofmann

351 Analysis of the electrical coupling of root cells: implications for ion transport and the existence of an osmotic pump: model
P. M. Cortes

365 An inexpensive system for exposing plants in the field to elevated concentrations of CO_2: technical report
T. W. Ashenden, R. Baxter & C. R. Rafarel

373 Temperature effects on endogenous indole-3-acetic acid levels in leaves and stamens of the normal and male sterile 'stamenless-2' mutant of tomato (*Lycopersicon esculentum* Mill.): short communication
S. Singh, V. K. Sawhney & D. W. Pearce

379 Book reviews

PART 4

381 The antioxidant effects of thylakoid Vitamin E (α-tocopherol): mini review
M. J. Fryer

393 Water balance in the arborescent palm, *Sabal palmetto*. I. Stem structure, tissue water release properties and leaf epidermal structure
N. M. Holbrook & T.R. Sinclair

401 Water balance in the arborescent palm, *Sabal palmetto*. II. Transpiration and stem water storage
N. M. Holbrook & T. R. Sinclair

411 Carotenoid composition in sun and shade leaves of plants with different life forms
B. Demmig-Adams & W. W. Adams III

421 Defining leaf area index for non-flat leaves
J. M. Chen & T. A. Black

431 Water storage in the wood and xylem cavitation in 1-year-old twigs of *Populus deltoides* Batr.
M. A. Lo Gullo & S. Salleo

439 Differentiation of freezing tolerance and vernalization responses in Cruciferae exposed to a low temperature
A. Laroche, X. M. Geng & J. Singh

447 Translocation of nitrogen in osmotically stressed wheat seedlings
M. Larsson

457 The influence of water stress on leaf and stem photosynthesis in *Spartium junceum* L.
E. T. Nilsen

463 Developmental correlations between roots in heterogeneous environments
M. Gersani & T. Sachs

471 Hydraulic architecture of sugarcane in relation to patterns of water use during plant development
F. C. Meinzer, G. Goldstein, H. S. Neufeld, D. A. Grantz & G. M. Crisosto

479 Phytochrome-mediated changes in the ATP content of *Kalanchoë blossfeldiana* seeds
A. Dedonder, R. Rethy, H. Fredericq & J. A. De Greef

485 Changes in leaf $\Delta^{13}C$ of herbarium plant species during the last 3 centuries of CO_2 increase
J. Peñuelas & J. Azcón-Bieto

491 A method for introducing xylem emboli *in situ*: experiments with a field-grown tree: technical report
S. Salleo, T. M. Hinckley, S. B. Kikuta, M. A. Lo Gullo, P. Weilgony, T.-M. Yoon & H. Richter

499 Book reviews

501 Announcement

PART 5

503 Cytokinins and tRNAs: arguments against a hypothesis of cytokinin action: opinion
S. Jansson

507 Intercellular communication in *Chara*: factors affecting transnodal electrical resistance and solute fluxes
R. J. Reid & R. L. Overall

519 Induction of crown galls by *Agrobacterium tumefaciens* (strain C58) reverses assimilate translocation and accumulation in *Kalanchoë daigremontiana*
S. Malsy, A. J. E. van Bel, M. Kluge, W. Hartung & C. I. Ullrich

531 Mode of action of paraquat in leaves of paraquat-resistant *Conyza canadensis* (L.) Cronq
E. Lehoczki, G. Laskay, I. Gaál & Z. Szigeti

541 Stomatal conductance, photosynthesis and respiration of temperature deciduous tree seedlings grown outdoors at an elevated concentration of carbon dioxide
J. A. Bunce

551 Stomatal response to drying soil in relation to changes in the xylem sap composition of *Helianthus annuus*. I. The concentration of cations, anions, amino acids in, and pH of, the xylem sap
T. Gollan, U. Schurr & E.-D. Schulze

561 Stomatal response to drying soil in relation to changes in the xylem sap composition of *Helianthus annuus*. II. Stomatal sensitivty to abscisic acid imported from the xylem sap
U. Schurr, T. Gollan & E.-D. Schulze

569 Photosynthesis in flashing light in soybean leaves grown in different conditions. I. Photosynthetic induction state and regulation of ribulose-1,5-bisphosphate carboxylase activity
T. L. Pons, R. W. Pearcy & J. R. Seemann

577 Photosynthesis in flashing light in soybean leaves grown in different conditions. II. Lightfleck utilization efficiency
T. L. Pons & R. W. Pearcy

585 X-ray microanalytical (EDX) investigation of potassium distributions in mesophyll cells of non-acclimated and cold-acclimated rye leaves
K. Pihakaski-Maunsbach & D. M. R. Harvey

593 The influence of elevated CO_2 and temperature on biomass production of continuously defoliated white clover
G. J. A. Ryle & C. E. Powell

601 Do phospholipids and sucrose determine membrane phase transitions in dehydrating pollen species?
F. A. Hoekstra, J. H. Crowe, L. M. Crowe, T. van Roekel & E. Vermeer

607 The relationship between vascular differentiation and the distribution of ice within Forsythia flower buds
E. N. Ashworth, T. J. Willard & S. R. Malone

613 Photoadaptation, photoinhibition and productivity in the blue-green alga, *Spirulina plantensis* grown outdoors
A. Vonshak & R. Guy

617 Effect of a pretreatment of seed coats with a low osmolality solution on subsequent [^{14}C] sucrose transport into attached empty ovules of pea: short communication
P. Wolswinkel & J. W. Koerselman-Kooij

623 Book reviews

PART 6

625 The role of calcium in salt toxicity: review
Z. Rengel

633 A theoretical model of hydraulic conductivity recovery from embolism with comparison to experimental data on *Acer saccharum*
S. Yang & M. T. Tyree

645 Electrotaxis of zoospores of *Phytophthora palmivora* at physiologically relevant field strengths
B. M. Morris, B. Reid & N. A. R. Gow

655 The use of 3-amino-1,2,4-triazole to investigate the short-term effects of oxygen toxicity on carbon assimilation by *Pisum sativum* seedlings
A. M. Amory, L. Ford, N. W. Pammenter & C. F. Cresswell

665 Phosphate uptake, efflux and deficiency in the water fern, *Azolla*
R. L. Bieleski & A. Läuchli

675 Rapid calcium exchange for protons and potassium in cell walls of *Chara*
P. R. Ryan, I. A. Newman & I. Arif

685 Evacuolation and enucleation of mesophyll protoplasts in self-generating percoll gradients
F.-S. Wu & Y.-Z. Tsai

693 Growth and gravitropism of corn roots in solution
T. Nantawisarakul & I. A. Newman

703 Diurnal leaf movement, chlorophyll fluorescence and carbon assimilation in soybean grown under different nitrogen and water availabilities
W.-Y. Kao & I. N. Forseth

711 Comparison of salt tolerance and osmotic adjustment of low-sodium and high-sodium subspecies of the C_4 halophyte, *Atriplex canescens*
E. P. Glenn, M. C. Watson, J. W. O'Leary & R. D. Axelson

719 Nickel toxicity and peroxidase activity in seedlings of *Triticum aestivum* L.
T. Pandolfini, R. Gabbrielli & C. Comparini

727 Calcium-salinity interactions affect ion transport in *Chara corallina*
J. Whittington & F. A. Smith

735 Evidence supporting a non-phloem source of water for export of solutes in the xylem of soybean root nodules
J. G. Streeter & S. O. Salminen

743 Photophysiology of turion germination in *Spirodela polyrhiza* (L.) Schleiden. X. Role of nitrate in the phytochrome-mediated response
K.-J. Appenroth, H. Augsten & H. Mohr

749 Response of plant roots to elevated atmospheric carbon dioxide: short communication
H. H. Rodgers, C. M. Peterson, J. N. McCrimmon & J. D. Cure

753 Book reviews

755 Corrigendum

PART 7

757 Editorial

759 FORUM: What remains of the Cholodny-Went theory?

795 Growth and shoot:root partitioning of spinach plants as affected by nitrogen supply
E. Smolders & R. Merckx

809 Photosynthesis of oak trees [*Quercus petraea* (Matt.) Liebl.] during drought under field conditions: diurnal course of net CO_2 assimilation and photochemical efficiency of photosystem II
D. Epron, E. Dreyer & N. Bréda

821 Differential effects of drought and light levels on accumulation of citric and malic acids during CAM in *Clusias*
A. C. Franco, E. Ball & U. Lüttge

831 Differential uptake of summer precipitation among co-occurring trees and shrubs in a pinyon-juniper woodland
L. B. Flanagan, J. R. Ehleringer & J. D. Marshall

837 Electrical impedance of white spruce shoots in relation to pressure-volume analysis and free sugar content
S. J. Colombo & E. Blumwald

843 Effect of nitrogen and phosphorus availability on the growth response of *Eucalyptus grandis* to high CO_2
J. P. Conroy, P. J. Milham & E. W. R. Barlow

849 Vascular anatomy of fabaceous nodules of determinate growth: short communication
K. B. Walsh, R. S. Atkins & C. S. Low

855 Diurnal variation in the temperature response of leaf extension of two bunchgrass species in the field: short communication
C. A. Busso & J. H. Richards

861 An abscisic-acid-responsive, low temperature barley gene has homology with a maize phospholipid transfer protein: short communication
M. A. Hughes, M. A. Dunn, R. S. Pearce, A. J. White & L. Zhang

867 Quantitative determination of changes induced by NaCl in vacuoles and cellar size of *Lycopersicon esulentum* root cells: short communication
I. Sánchez-Aguayo & A. L. González-Utor

PART 8

873 Low conductances for CO_2 diffusion from stomata to the sites of carboxylation in leaves of woody species
J. Lloyd, J. P. Syvertsen, P. E. Kriedmann & G. D. Farquhar

901 The consequences of delayed greening during leaf development for light absorption and light use efficiency
T. A. Kursar & P. D. Coley

911 Effects of elevated carbon dioxide concentration on photosynthesis and growth of small birch plants *(Betula pendula* Roth.) at optimal nutrition
R. Petterson & A. J. S. McDonald

921 Ultraviolet-B and visible light penetration into needles of two species of subalpine conifers during foliar development
E. H. DeLucia, T. A. Day & T. C. Vogelman

931 Disturbance of cell Ca^{2+} homeostasis as a primary trigger of Al toxicity syndrome
Z. Rengel

939 Growth of *Sesbana rostrata* (Brem) with stem nodules under controlled conditions
D.-K. Kwon & H. Beevers

947 Water relations of the tomato during fruit growth
R. W. Johnson, M. A. Dixon & D. R. Lee

955 Magnesium deficiency enhances resistance to paraquat toxicity in bean leaves
I. Cakmak & H. Marschner

961 Book reviews

963 Announcement

PART 9

965 The use of natural abundance of nitrogen isotopes in plant physiology and ecology: commissioned review
L. L. Handley & J. A. Raven

987 Carbon: terrestrial C_4 plants: commissioned review
M. Peisker & S. A. Henderson

1005 Variations in the natural abundance of oxygen-18 and deuterium in plant carbohydrates: commissioned review
D. Yakir

1021 Carbon: freshwater plants: commissioned review
J. E. Keeley & D. R. Sandquist

1037 Site-specific natural isotope fractionation of hydrogen in plant products studied by nuclear magnetic resonance: commissioned review
G. J. Martin, M. L. Martin & B.-L. Zhang

1051 Carbon isotope discrimination and discrimination and the integration of carbon assimilation pathways in terrestrial CAM plants: commissioned review
H. Griffiths

1063 Carbon isotope discrimination in C_3-C_4 intermediates: commissioned review
S. von Caemmerer

1073 Water uptake by plants: perspectives from stable isotope composition: commissioned review
J. R. Ehleringer & T. E. Dawson

1083 Present and potential uses of the natural abundance of stable isotopes in plant science, with illustrations from the marine environment: commissioned review
J. A. Raven

1091 The measurement of stable isotope natural abundance variations: commissioned reviews
T. Preston

1099 Physical and chemical basis of carbon isotope fractionation in plants: commissioned review
M. H. O'Leary, S. Madhavan & P. Paneth

1105 Stable sulphur isotopes in plants: a review: commissioned review
B. A. Trust & B. Fry

1111 Instructions to contributors
